First Place, Painting

SACO SIDEWALK ARTS FESTIVAL 2017

Best in Show

STATEMENT

Each painting is a one of a kind original (no prints) of my own design and execution. My subject matter ranges from museum scenes and architecture to florals, plein air work and still lifes. I work from photographs as well as direct observation, whether it be in the field (plein air) or in the studio.

I am interested in the formal aspects of representational painting ie. composition/color/value /texture etc. but focus mostly on finding abstract yet implicit shapes and trying to find ways to simplify my subjects.
